Oklahoma City Furnishes 25 Per Cent of Seekers for State Offices

Special to the World.
OKLAHOMA CITY, May 13.—Three hundred and twenty-two filed for state offices had been registered at the office of the state election board Friday night, with one day more to go to complete the first three weeks of the registration period. Five democrats and three republicans have filed for governor, with more to come. It is expected, correct, and possibly some changes during the week. The socialist party filed a complete list of candidates for state office in accordance with its party procedure and indicating that the socialists expect to make an independent campaign. Oklahoma City maintains its political reputation by furnishing 25 per cent of the candidates so far, and will probably see to it that the percentage is not diminished.

The filings for state offices will close June 1, after which a contract will be made for printing the ballots, and this big job must be completed within a month. The ballot this year is expected to be the largest that has ever been submitted to a primary election in the state.
